

Powerful desktop expansion options for your ThinkPad

ThinkPad Docking and Port Replication Solutions

Highlights

Power and portability

IBM ThinkPad notebooks have long set the standard for portable computing power with features that include fast Intel® Pentium® processors, large high-resolution displays and high-capacity hard disk drives. ThinkPad docking solutions complement the power, convenience and flexibility long associated with ThinkPad notebooks. The range of optional ThinkPad docking solutions include SelectaBase models, PC Card Enabler, SelectaDock III and Port Replicators.

Connectivity, power and simplicity

Coupled with either SelectaDock Base Model I, the new SelectaBase 600 or SelectaBase 770, SelectaDock III is an innovative productivity enhancement that offers both simple cable management and full-desktop functionality and connectivity.

Investment protection

IBM's docking solutions are designed to allow new ThinkPad systems to work with existing and future docking products. It's a building-block approach your budget will appreciate.

ThinkPad 600 and 770 Docking Solutions: modular, flexible design

Explore the desktop power and flexibility that IBM ThinkPad docking solutions can provide. IBM features a complete range of ThinkPad docking solutions from port replication through ultimate desktop connectivity and functionality.

To help protect your ThinkPad investment, ThinkPad docking solutions are designed with a keen eye for backward and forward compatibility. The new PC Card Enabler supports all SelectaBase models, including the earlier SelectaDock Base Model I. Also, all current ThinkPad SelectaBase models are compatible with the earlier SelectaDock I and II.

ThinkPad Docking Solutions at a glance

Model	PC Card Enabler*	SelectaDock Base Model I	SelectaBase 600/ SelectaBase 770	SelectaDock III**
Part number	83H6741	39H7405	12J2467/ 83H6735	3547003
Ports	N/A	serial, parallel, monitor, keyboard, mouse, diskette drive, audio out	serial, parallel, monitor, keyboard, mouse, diskette drive, audio out, MIDI/game, USB pass-through	base model ports, plus line in, headphone, SCSI-3, MIDI/game, 2 USB
Slots	N/A	N/A	N/A	2 full-size PCI/ISA shared slots and 1 half-size PCI slot
PC Card slots	2 Type II or 1 Type III CardBus	via optional PC Card Enabler	via optional PC Card Enabler	2 Type II or 1 Type III CardBus
Bays	N/A	N/A	N/A	UltraBay II (front loading) for 1 ThinkPad UltraBay II storage device or 2 ThinkPad UltraBay I*** storage devices and 1 half-high industry-standard bay
Other features	N/A	one-step docking, hot/warm docking, security slot for cable lock, support for PC Card Enabler	USB pass-through from ThinkPad, one-step docking, hot/warm docking, system security, security slot for cable lock, support for PC Card Enabler	plug and play ready, PC97 compliant, fail-safe docking, hot/warm docking, positive docking indicator, CardBus and UltraBay II, security slot for cable lock, Wake on LAN via PCI Card

Benefit	offers additional PC Card slots for greater expandability and flexibility when attached to SelectaDock base Model I, SelectaBase 600 or SelectaBase 770	port replication to provide cable management and one-step connection to peripherals such as monitors, keyboards or printers	port replication to provide cable management and one-step connection to peripherals such as monitors, keyboards or printers	port replication plus full desktop expansion, connectivity and functionality when added to SelectaDock Base Model I, SelectaBase 600 or SelectaBase 770

* PC Card Enabler requires SelectaDock Base Model I, SelectaBase 600 or SelectaBase 770, as applicable.

** SelectaDock III requires SelectaDock Base Model I, SelectaBase 600 or SelectaBase 770, as applicable.

*** ThinkPad 760/765 UltraBay I devices supported via optional tray. ThinkPad 600 UltraSlimBay devices are not supported in SelectaDock III.

ThinkPad 380/385 and 560 Port Replicators: expansion and cable management

ThinkPad Port Replicators complete IBM's array of desktop solutions. Both Port Replicators let you use an external monitor, a standard keyboard and a printer, without connecting and disconnecting each device every time you want to attach and detach your ThinkPad notebook. The Enhanced Port Replicator adds additional PC Card slots to your ThinkPad notebook.

ThinkPad Port Replicators at a glance

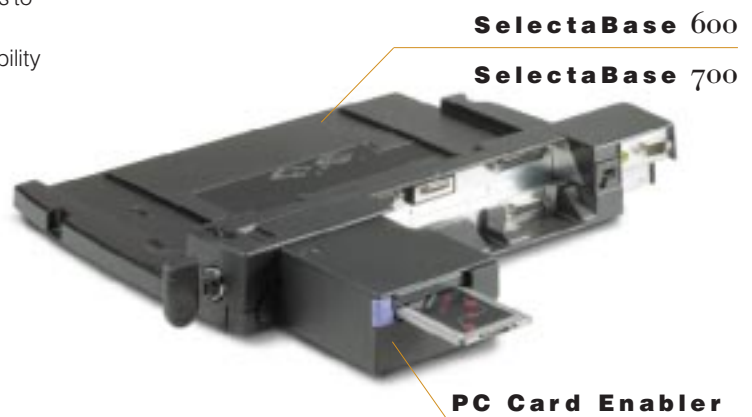

Model	Port Replicator	Enhanced Port Replicator
Part number	46H4209 	11J8997 
Ports	serial, parallel, monitor, keyboard, mouse, diskette drive, audio in/out,	serial, parallel, monitor, keyboard, mouse, diskette drive, audio in/out, MIDI/joystick, CardBus, USB port pass-through
PC Card slots	N/A	2 PC CardBus slots support 2 Type II or 2 Type III PC Cards
Systems supported	380, 385, 560, 560E, 560X	380, 385, 560X
Benefit	port replication	port replication plus PC Card slots

PC Card Enabler

IBM now offers the ultimate in enhanced port replication. The PC Card Enabler offers one Type III or two Type II PC Card slots. Simply attach it to the back of the SelectaDock Base Model I, SelectaBase 600 or SelectaBase 700, and you have access to two additional PC Card slots. The PC Card Enabler uses minimum space on your desktop while providing the capability to adapt to your changing needs.

IBM service and support

Our one-year limited warranty¹ for ThinkPad options helps ensure your satisfaction. Included at no additional charge during the warranty period is ThinkPad EasyServ,² our convenient courier service that picks up a device in need of servicing, delivers it to an IBM designated repair facility and returns it to you—without charging you for shipping.

The PC Card Enabler is also compatible with the SelectaDock Base Model I.
